About me

I believe the work we do can outlive us. That's why I love partnering on projects that make a positive difference. My motivation comes from one of my favorite verses: "Whatever you do, work at it with all your heart, as working for the LORD."

When you work with me, you don't just get a skilled developer—you gain a partner who is genuinely invested in your success.

SKILLS

WORK EXPERIENCE

Web Developer

ABLE

01/2022 - Present

Hyderabad, India

Achievements/Tasks

- Appreciated for picking up new skills in a very short time
- Promoted to take up LEAD responsibilities in just 6 months after joining
- Contributed to 20+ projects

Software Engineer (IoT)

Maker's Lab, Tech Mahindra

07/2018 - 01/2022

Pune, India

Achievements/Tasks

- 4 Awardees of BRAVO, 2 Special appreciation awards
- Represented Lab at various premier forums
- Been recognized as the future leader of Maker's Lab

SME (Customer service)

Amazon

08/2017 - 06/2018

Hyderabad, India

Achievements/Tasks

- Awardee of Most valuable player (MVP)
- Secured position in top 100 CSA's at Amazon
- Promoted to role of SME in just 4 months on floor

PROJECTS

Apex Subscriptions SDK – Headless account and order management system

- This SDK enables businesses to quickly launch their daily subscription products like meals, dairy, etc. Spearheaded the idea and implemented the solution. It is being used by 10+ clients to date. Developed it using JavaScript, Figma design tokens, and SvelteKit.

BRICKS UI components – UI component library

- This is a UI library built using Svelte and TailwindCSS. This library also comprises utilities that make building Admin dashboards a breeze. Components support theming with Figma design tokens.

Apex CMS – CMS admin for client content management

- An in-house built CMS solution for managing clients website content and deployments. Supports building dynamic relations between different content types using entities and archetypes.

Apex Commerce – Digitalising storefronts

- This application is for aiding businesses to make a mark in the e-commerce market. Developed the admin functionality for this application, primarily using cutting-edge technologies like SvelteKit, Vite, Jest & Cypress.

Ellipsis – Headless Cart SDK

- This SDK is for adding cart functionality for e-commerce storefronts. My primary contributions include improvement of existing features, increasing code test coverage to 90+% and maintenance.

Saut – Curriculum management of differently abled children

- This is a web application for managing the education curriculum of differently abled kids. It has been built to support the English and Arabic languages.

Storefronts – Mivi, Vibrant Living, Old School

- These are live e-commerce storefronts of respective clients. Product catalogue updation, frontend enhancements, and client request implementations are my responsibilities.

EtherWatch – Marketplace for satellite data

- Built a web application with React as the frontend and Django backend, sourcing data from partner APIs. This application serves as a marketplace for satellite data, enabling monitoring of various aspects, including weather and asset conditions.

eNetra – Smart energy management

- Developed a full-stack application with Django as a backend and React frontend, implementing the Redux pattern

eFortify – Covid Tracker application

- Was the key resource in developing the solution as a whole, mainly contributing to developing a React-Native based mobile application

EDUCATION

B.Tech (Mechanical Engineering)

Geetanjali College of Engineering and Technology

06/2013 – 06/2017

Hyderabad, India

Projects

- ARI – Air energy Replenishing Instrument
- Study of LFH bogies
- Technical seminar on Polymagnets

ACADEMIC ACHIEVEMENTS

- Graduated in distinction without a single backlog ever!
- Worked as an event coordinator at BHASWARA 2k14.
- Winner of an event conducted by ALFAMATICA 2k15.
- Runner in paper presentation conducted by BHASWARA 2k15.
- Winner of Technical Quiz 2015 (Mechanical department).
- Winner of paper presentation conducted by ELECTRIKA 2k16.
- Winner of PHOENIX event conducted by NEN 2016.
- Winner of MEMO FIESTA event conducted by ALFAMATICA 2k17

CERTIFICATES & CREDENTIALS

- Scaler Academy
Pursuing the course to gain expertise in Software Engineering
- The Complete 2020 Web Development Bootcamp
A full-stack course on web development by Dr. Angela Yu (Udemy)
- React – The complete guide
A course on React which covers hooks, redux, Typescript etc by Academind (Udemy)
- LinkedIn certifications
Cleared LinkedIn assessments on HTML, CSS, JS, React, Front- End Development with an average rating of TOP 3%
- Amongst TOP 1% out of 256942 participants in cssbattle.dev
- SILVER badge in 10 Days of JS challenge of HackerRank
